GEOMETRY IN MARK BURRY'S WORK.  
CASE OF STUDY: SAGRADA FAMÍLIA  
Susana Aires Neves

ABSTRACT

This paper shows an approach on how Mark Burry achieves the geometry thought by Antoni Gaudí for Sagrada Família church. From the discover of the key shapes, to the way they are handle to continue the project as Gaudí's wishes, this paper will also undertake the questions that this investigation brought and its contributions for the public knowledge.
